

Outdoor Living Solutions

Screen Rooms - Enjoy the Outdoors...Leave Bugs Behind

Maintenance-Free Components

- **Heavy-duty extruded aluminum framing** provides superior strength and durability compared to conventional roll-formed systems.
- **Electrostatically applied polyester paint** resists scratches, fading, and weathering for lasting beauty.

Superior Screening

- **Water Shed Technology™ screen mesh** features a durable hydrophobic coating that repels water and helps prevent dirt and debris buildup.
- **Optional BetterVue® screening** provides clearer views, increased airflow, and more natural light compared to traditional screen mesh.

Standard

BetterVue

Design Options

- **Optional Korad® knee wall, transom, and trapezoid panels** are scratch and dent-resistant while providing insect protection and built-in UV inhibitors.
- **Optional floor-to-ceiling screen walls** maximize views and feature customizable chair rail heights.
- **Up to two out-swing screen doors** come standard for convenient access and ventilation.

Outdoor Living Solutions

Patio Covers - Stay Cool, Dry, and Comfortable

Roof System

- **Engineered for your local climate**, meeting regional snow and wind load requirements across the United States.
- **Exclusive Climatemaster® technology** distributes roof loads evenly for exceptional strength and durability.
- **Maintenance-free aluminum construction** eliminates concerns about rotting, warping, or ongoing maintenance.
- **Premium painted finish with Krystal Kote® protection** resists fading, scratching, and weathering to keep your patio cover roof panels looking beautiful for years.

Support System

- **3" x 3" extruded aluminum posts** provide exceptional strength and won't twist, warp, or rot like traditional wood supports.
- **Concealed fasteners and interior vinyl trim** create a clean, finished appearance from below.

Design Options

- Choose from a **3" x 3" extruded aluminum post system** or custom-engineered wood support designs.
- Add **skylights** to bring in natural light or upgrade to **OSB-laminated roof panels** for the application of exterior shingles to match your home.
- Designed with the flexibility to **add walls in the future**, making it easy to convert your patio cover into a screen room or sunroom.
- **Minimal roof pitch requirements** provide greater design flexibility compared to conventional roofing systems.
